Questions in the pad, or mail to hello@kanthaus.online.

Arrival is also easy: the kanthaus is 500m from the train station in Wurzen.

If possible bring food (saved would be great).

What is Direct Action and what is the training about?

You think many things go wrong in the world? You feel helpless, because you often don't know how the better can be achieved or enforced? Environmental destruction, human rights violations in establishments of coercion and exploitation – so many things are happening each day, but barely anything helps? This Direct-Action-Training will help. Because we are not as helpless, powerless as it seems. To the contrary: there are many forms of action that we can learn and practise in order to defend ourselves and fight back better, in order to raise our voices louder and clearer or to get politically involved: communication guerilla, hidden theater, precise blockades or occupations, intelligent interruption of operational sequences and much more. They create awareness and provide space for individual calls and visions. We will discuss concrete forms of action, see the legal frame and try out things. ++ Inform beforehand? e.g. on <http://beautifultrouble.org/tactic/direct-action/>

Who can not participate in the introductions in Leipzig or Wurzen on Monday night should watch this movie beforehand, in order to have the same knowledge before the training: <https://youtu.be/cruXcOk1egw>

By the way: More events of trainings and talks to such topics on www.projektwerkstatt.de/termine, for example a court defence training from the 12.-14.1. in Chemnitz.
